**Origin** is a verbal associations test developed by Nick U. Soulios in July 2021. Please send your answers to [cebity@gmail.com](mailto:cebity@gmail.com), along with your full name, nationality, age, gender and all prior I.Q. scores. Valid answers are single words, and you can send only one answer per question. Short explanations are welcome and will be useful while scoring your answer-set. Scoring fee is set to €15, sent to the [Paypal account](#) [cebity@gmail.com](mailto:cebity@gmail.com), until the first norm at 30 testees. After the first norm has been calculated, the fee will be re-adjusted to €30. Origin supports two attempts and I.Q. score will be reported in both of them. A projected norm and a sample of the certificate are available below.

### Origin Projected Norm (unofficial)

Raw Score	I.Q. Score sd15	Raw Score	I.Q. Score sd15
1	100	21	146

3	104	23	150
4	106	24	152
5	108	25	154
6	110	26	156
7	112	27	158
8	114	28	160
9	116	29	162
10	118	30	164
11	120	31	166
12	122	32	168
13	125	33	170
14	128	34	174
15	131	35	177
16	134	36	180
17	137	37	185
18	140	38	190
19	142	39	195
20	144	40	200

Until we can refer to the first official norm, the projected norm is a result of speculation about the difficulty of the questions contained in Origin, and as a guideline, it should not be used for admissions or listings.
