16	166
17	170
18	175
19	180
20	≥185

**Silent Eagle** is a numeric pattern recognition test that was developed by Nick U. Soulios in October 2020. Two official attempts are supported and I.Q. score will be reported in both. Scoring costs €25 per attempt sent to the Paypal account [cebiti@gmail.com](mailto:cebiti@gmail.com) or using this form: <https://www.paypal.com/paypalme/soylis>

Usual turnaround is 24 hours. First official norm will be calculated at 30 testees and a certificate will be sent out based on that norm. The e-mail address to send your answers has the same ID with the Paypal account above, [cebiti@gmail.com](mailto:cebiti@gmail.com) . Short explanations are welcome and will be helpful while scoring your submission.
